

GUESTBOOK - UPPER ELEMENTS

The Upper Elements TXT album can be made from your choice of a delicious line of premium leathers. Add a tooTone! look with a contrasting spine for a guestbook that will wow your guests. Upper Elements TXT has adhesive on only one side for your images leaving the other side bare and perfect for leaving those personal messages. No special pens needed, no writing on the photographic image, just great looks, tons of material options, easy ordering and easy assembly. You even have a choice of white or black base pages. Upper Elements TXT will hold the same number of images as leaves so order a 10 leaf book if you want it to hold 10 images. The remaining sides will be blank for writing.
